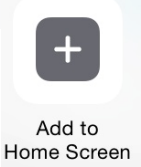
1) Go to the website www.aauwpoughkeepsie.org

2) With the website open on the page look up to the top right and you will see. >>>>>>>>>>
Tap on this "share button."

3) One of the options will be "add to Home Screen."
Tap on this button. >>>>>>>>>>>>>>>>>>>>



4) Edit the name if you wish, tap "Add"
and you will have the icon for the app on your screen.

You can follow these same steps to put an icon for
www.facebook.com/AAUWPoughkeepsie2014 or any other website you want to use often.

These apps keep you from having to go through Safari and choosing the websites. This is also a quick route to the newsletter since the link to the newsletter is on the homepage of the website. ■
